About Us

S.W.Plastic has been at the forefront of the regions home improvements industry for OVER...

30
Years

Our Mission

Our mission has never changed, and that is - to provide extraordinary quality and value so that our customers will return time and again.

By continually evolving our product range and setting high-quality standards ensures that you, the customer, receive the highest standards available. We give our customers added reassurance when choosing our products and services through the following:

MADE IN BRITAIN

All of our profiles are manufactured here in the UK and as such meet extremely high quality standards, whilst also helping us to support the British economy and manufacturing industry.

THE ENVIRONMENT

At SW Plastic, We take our responsibility for protecting the environment extremely seriously and do all that we can to protect it. For example, All of our glass, PVC, metal, and wood wastage is collected and sent to recycling plants.

SECURE

All of our products provide exceptional levels of security and protection against intruders.

If you would like more information about this, get in contact with us!

Window Designs

We offer windows in a variety of styles and colours to suit every home. Every single window is designed and assembled with the latest energy-saving technology and security features to ensure your home is as efficient and safe as possible.

Whether you're looking for new windows for a new build or replacement windows to give your home a fresh new look – we want your home to look special, down to the very last detail.

Bay Windows

Enjoy panoramic views and floods of sunlight by choosing a beautiful bay window. The arc of casement window frames makes a strong style statement and gives your home valuable extra space. Select a Bay Window and we'll configure them to your specification in the size and colour of your choice.

Once you've decided exactly what you want, they can give you an accurate quote. Your bay windows will then be manufactured by craftsmen to your specifications, ensuring that they fit perfectly in your home.

Casement Windows

Casement windows are secure, energy-efficient and attractive, so it's no surprise that they're our best-selling style. We'll design them especially for you in the colour and configuration of your choice. With top or side hinges, you can pick your glazing and finishing touches for a tailored look and high performance.

Our casement windows allow maximum light into your rooms and their energy-efficiency can help cut your heating bills. They look great, help to keep you safe and can be designed to be unique to you.

Get a FREE No-Obligation Quote Today!

Sash Windows

Add elegance and period grandeur to your home with vertical sliding sash windows. Made from one or more movable 'sashes' for maximum ventilation, you can also create the appearance of individual panes with cottage bars.

Depending on your choice of frame, our vertical sliding sash windows' energy-efficient construction comes with either A-rated or B-rated glass as standard to help reduce your heating bills and keep your home warm when it's cold outside. We even make them so that they tilt for easy cleaning.

Tilt & Turn Windows

Tilt and turn windows are ideal for many homes because they can be tilted inwards for effective ventilation and turned to make it easy for you to clean them from the inside. Their crisp, modern style suits any type of property, while energy-efficient materials will help to keep you warm – and your heating bills low.

Our tilt & turn windows will let the summer in and help keep winter chills out. They can help to reduce your heating bills and keep your home warm when it's cold outside with their energy-efficient construction.

Cottage Windows

Beautifully replicating traditional cottage windows, this style is the perfect way to preserve the features of an older property or give a new home an authentic feel. Featuring glazing bars that give the appearance of separate panes of glass, we will design your windows especially for you and your choice of colour and finishing touches.

Call us on 01760 751 333 or visit us at swplastic.co.uk for information about any of the windows listed.

Door Designs

Every door from SW Plastic is energy-efficient, secure and stylish. Choose from a wide range of colours and designs to achieve the look you want, or let the light flood into your home with a French, bi-fold or patio double-glazed door. For a complete makeover, add a matching garage door or porch.

For more customisable options we will send you more specific and appropriate brochures as this is just an overview of the types of doors we do. Email us at info@swplastic.co.uk and we will send them to you.

French Doors

Enjoy your garden throughout the year with our elegant external French doors. Choose from our extensive range of colours to make a bold style statement. They're available in uPVC and are durable, energy-efficient and fitted with a Yale kitemarked 3-star cylinder lock as standard.

Our French doors are a timeless classic that adds character to any home. And have been brought right up to date with advanced frame materials, energy-efficient sealed units for thermal performance and a range of sophisticated security features.

Patio Doors

Sleek and space-saving, sliding patio doors let the light and fresh air stream into your home.

Smooth to open and close, you can choose between aluminium and uPVC and from a wide range of colours. They're energy-efficient and secure, fitted with a Yale kitemarked 3-star cylinder lock as standard.

Our sliding patio doors are a contemporary, stylish and space-saving way to bring you closer to your garden. The doors slide open easily to create the perfect entrance in summer weather. And in winter, they give unrivalled insulation.

Bi-Folding Doors

S.W.Plastic's bi-folding doors meet the demands of contemporary living and combine this with beauty and practical functionality.

These aesthetically pleasing door panels are configured into a number of concertina folds that can be pulled back to offer optimum versatility, light and access into any room.

Where an opening or partition is required between rooms, whether a small or large room or where your home leads onto a patio or outside area and you want to extend your view of the garden, the bi-fold door is ideal for these applications. Bi-fold doors create synergy between rooms of all shapes and sizes to seamlessly connect your living space whether indoors or outdoors.

Porch

An SW Plastic porch does more than add extra space to your home – we'll tailor the roof, brick, window and door options to your requirements and give your property the 'Wow' factor. It will also increase your home's energy efficiency and add an extra layer of security, with a top-of-the-range Yale kitemarked 3-star cylinder lock fitted as standard. If you need planning permission, we'll take care of that too.

An SW Plastic porch creates a distinctive and secure entrance for your home. You can choose from a variety of different roof designs, many walls and brickwork options, and from our full range of double-glazed windows and doors

Composite Doors

Composite doors are made of a selection of materials including a solid timber core, glass-reinforced plastic and uPVC to name a few. Each material is chosen for its specific properties, fused together to result in one of the strongest door materials currently on the market.

This promises to add extra security, enhanced weatherproofing and provides you with complete peace of mind about the safety and protection of your family and home. The advantages of a composite door include the extensive choice you get when it comes to tailoring them to your personal taste and requirements. With an array of colours to choose from, as well as woodgrain effects, textures and finishes, you can receive a unique composite door construction that is bespoke to your home.

uPVC Doors

An SW Plastic uPVC door is maintenance-free due to their strong, weatherproof designs which fight against warping, rotting and colour fading.

The uPVC doors have excellent sound and thermal insulation and are a cost-effective alternative to their wooden counterparts.

They are suitable for both new buildings and for the renovation of an old building which could help to add value to your property. Many of the doors come with double-glazing and they are internally beaded for added security.

Conservatories Designs

You need to look no further than S.W.Plastic For an affordable and bespoke conservatory. We work with you to design an individual conservatory taking into account the size, shape and it's finishing touches. Roofs can be traditional glass or solid or a mixture of both – for your perfect living space. If you have an existing conservatory you can just upgrade the roof with glass, polycarbonate or solid design.

Edwardian Conservatory

Adding a modern design and traditional twist, an S.W.Plastic Edwardian conservatory will give you extra living space with a touch of elegance.

- With elegant design features characteristic of the Edwardian era, and a bold rectangular shape will maximise your floor space.
- The sleek lines of the glass four-sided pitched roof let in plenty of light for a bright, airy living space while keeping the temperature controlled.
- Create a traditionally-styled yet light-filled and modern room by choosing a solid roof – or opt to replace your existing conservatory roof with a solid design
- Customise your Edwardian conservatory with a choice of decorative finishes such as finials, crestings and coloured glass

Victorian Conservatory

Our Victorian conservatory's six distinctive, uncomplicated lines with an airy, angular shape creating an understated yet imposing living space which is also perfect for panoramic views.

- The angular design and three / five-facet roof reflect the essence of the Victorian period with the benefits of contemporary, energy-saving materials.
- Choose a traditional glass roof or opt for a modern twist with a solid-roofed design. We can even simply replace your existing conservatory roof for you.
- Every Victorian conservatory is custom-built here in Britain.
- You can customise your conservatory with a wide range of frames, doors, roof and glass options and beautiful finishing touches.

What can we do for you?

With over 30 years experience in dealing with Doors, Windows, Conservatories & more, we offer a unique home care service through-out East Anglia!

LOW MAINTENANCE

STYLES TO SUIT ALL BUDGETS

HIGH QUALITY

Lean-To Conservatory

A lean-to conservatory is a perfect choice for a modern garden room with its simple lines they complement every style of property.

- Its simple design complements all styles of architecture and can be customised with your choice of doors, windows and decorative finishes
- Instead of glass, choose a solid roof with optional roof windows and Solaroof glazing. We can also replace the roof on your existing Lean-to conservatory
- Available in a wide range of colours and effects
- Every Lean-to conservatory is individually designed and installed by our experts using the finest materials.

Bespoke Conservatory

Above is one of the many potential styles available to you. If you can't see the style you're looking for, please get in touch and we will provide you with further options.

Next to buying a house or a car, choosing a conservatory is a big commitment, so you'll want to understand the Benefits of an SW Plastic Conservatory to be confident that you're making the right decision. Rest assured that we are here to make everything easy, from ordering and planning permission to design and installation.

If YOU are interested, Contact Us we will be happy to help!

Extensions

At SW Plastic's we are passionate about building work and improving the quality of life our customers. If you need a to increase the size of your home or want to convert unused space in your property, then a house extension might be the ideal solutions for your home.

Although you might not need planning permission for your House Extension you will still need to get building regulation approval. This is something our expert building team will be able to help you with. These regulations set out the minimum expectation for such building features as fire safety, damp proofing, ventilation and energy efficiency

S.W.Plastic can add a stylish and flexible living space that's designed especially for you.

Every home extension is individually-designed to your exacting requirements and built in any shape or size

With a great choice of doors, windows, brickwork, roof tiles and decorative features, you can match your existing property or make a style statement with something completely different The high-grade security systems we use are a very effective barrier against would-be intruders

Roof-Line

Easy maintenance that saves you time and money, reliable weatherproofing and long lasting good looks. There are so many reasons that make SW Plastic Roof-trim products a smarter choice for your home.

Turn over to see all the roof-line products we offer.

Guttering

Damaged roof guttering can seriously damage your home, so keep yours leak-free and looking good with SW Plastic. Our roof guttering and uPVC downpipes feature innovative Gutter-guards that keep them debris-free and ensure that water flows safely away from your home.

Rigorously tested and built to last – we guarantee all parts for 10 years – you can rest assured that your property will be well protected for years to come, as your uPVC guttering will be made specifically for your home using the highest-quality materials.

Barge Boards

uPVC bargeboards can enhance the appearance of your home but they also perform the vital function of protecting the gable ends of its roof.

Replacing bargeboards that have seen better days with brand new uPVC bargeboards can give your home perfect protection from the elements, helping to ensure that it remains dry and free from rot.

SW Plastic bargeboards are made to protect your home from the Great British weather.

Fascia & Soffits

SW Plastic uPVC fascia boards and soffits offer your home vital protection by keeping your roof space dry and well-ventilated, preventing damp and condensation.

Our uPVC fascia boards and uPVC soffits are positioned where your roof meets your outer wall and perform a vital function in protecting your home from the wet.

Fascias support the bottom row of roof tiles and guttering – so it's essential that they're strong enough to carry the weight of water that runs along your gutters in a downpour.

Cladding

Transform the look of your home with our stunning exterior uPVC cladding – it looks fantastic while protecting your walls from the elements. We have three superb ranges of external cladding, each meaning you won't have to worry about rot, rust or repairs again. Sw Plastic's uPVC cladding can give your home a truly stand-out new look, whether you're seeking a modern, traditional or 'New England' style.

SW Plastic exterior uPVC cladding will instantly transform your home with a great choice of styles and colours.

Canopy's

A Canopy In Keeping With Your Home – With an extensive range of timeless designs, styles and sizes, we have a canopy to suit your property, adding value to your home.

Entrance Canopy's

You can provide your customers with stylish, long-lasting entrance canopies that add character and design to their homes. Not only do they offer shade and shelter, but they also add convenience and make entering their home much more enjoyable and less of a rush before the rain comes.

Walkway Canopy

Providing your customers with a stunning walkway and entrance to their properties or business premises will give them shelter on arrival to their doors. These stunning walkways not only look great but are adaptable to suit all types of buildings and can be freestanding avoiding any damage to existing walls.

Freestanding Canopy's

Our Freestanding Canopies offer a great solution for your customers to enjoy their hot tubs or seating areas within their gardens throughout the year and also provide UV Rays protection during the summer months especially. They also offer a great solution to storage for outside equipment or furniture sheltering them from the elements avoiding sun damage and fading.

Kitfrom 35 Canopy

Our range of attractive and high-quality kitform canopy's are the perfect solution for creating shade and shelter, enabling you to spend time outdoors regardless of the weather.

Our durable UK manufactured all aluminium canopy are enjoyed by many customers throughout the UK to cover hot tubs and patios, sheltered areas between buildings or store furniture away from the weather.

Carport Designs Simplicity 16

It's simple – The Simplicity 16 has been developed with speed of installation, durability and cost in mind.

Due to its clever design, the Simplicity 16 provides a durable and attractive shade and shelter solution at our most cost-effective price. It can project up to 4 metres and has a lightweight roofing system, making it perfect for use as a carport or veranda.

The stylish modern design gives a look that is second to none, enhancing your building's aesthetics. It also offers unbeatable structural performance, simply outperforming all other carport and canopy systems pound for pound. This highly versatile canopy and carport system offer a variety of solutions for:

- Carports
- Verandas
- Smoking Shelters
- Walkway Canopies
- Covered Play Areas
- Porch Canopies
- Caravan Shelters
- And many more applications

The Benefits of using this system:

All-aluminium system: The Simplicity 16 is only manufactured from aluminium to offer exceptional longevity and easy maintenance. It also features hidden, integral guttering for a clean, modern appearance.

High-speed installation: We have developed this system in partnership with one of the most prolific extrusion designers in the industry. Through his extensive expertise and using our knowledge gained from 25 years of experience, we have created the simplest fixing system possible.

Impact Resistance: Some of the systems on the market today use PVC or GRP which do not have the impact resistance of polycarbonate. We only use triple wall 16mm polycarbonate sheeting to ensure that your investment lasts and has the impact resistance and the snow loading capabilities for wherever you are in the UK.

Variable resistance: Unlike the majority of roof kits, which only offer a fixed pitch, the Simplicity 16 offers a pitch range of 2.5 degrees to 22.5 degrees to give you that little bit extra.

Carport Designs Simplicity 35

It's simple – The Simplicity 35 is our most popular carport due to its durability, versatility, and unlimited length. It is completely constructed from aluminium, giving you a structure with unbeatable durability together with a life expectancy of up to 25 years.

This robust system is also supplied with a full 10-year guarantee. The Simplicity 35 can be manufactured to any length to meet specific requirements and can span up to 6 metres, enabling you to cover multiple cars easily with minimum posts.

It has a modern, stylish appearance and benefits from robust integral aluminium guttering which creates an attractive finish to the structure whilst also ensuring a quick installation. Furthermore, this aluminium guttering requires minimal subsequent maintenance throughout the product's lifetime.

The Simplicity 35 system features 35mm structured polycarbonate roof panels, which are available in clear or opal and offers in excess of 98% UV protection which reduces the risk of your vehicle paintwork fading. They can also keep the interior of your vehicles cool by creating shade and shelter, preventing unwanted heat on hot, sunny days.

The Simplicity 35 has a variable wall pitch from 2.5° – 45° so that you can decide on the height of the wall-plate to suit your needs – ideal for taller vehicles such as campervans and caravans. The aluminium framework, which is supplied in white as standard, can be coloured to any RAL or BS colour to match your existing window and door frames or to create an attractive contrasting effect.

Alfresco Lifestyle Veranda

The Lifestyle Alfresco has a fresh, rounded appearance and has been designed with simplicity in mind. This sleek structure is subtle and compliments any environment from traditional and characteristic to fresh and modern.

It features an unlimited length and a maximum span of up to 6m with up to 6m between posts. This creates a structure that is made bespoke to your customer's requirements and allows them to cover larger spaces, helping them to use more of their garden throughout the whole year.

The frame is made completely from aluminium which is long-lasting and naturally rust-resistant. All fixings are hidden within aluminium trims and the downpipes are inside of the posts and can be connected either underground or diverted to a surface drain. The guttering is integrated, creating a smooth, clean look and also minimises maintenance.

The smooth & rounded profiles of the Lifestyle Alfresco enables this structure to fit in with both modern and older style buildings, creating the subtle look that many customers may require.

The Lifestyle Alfresco can be supplied with a number of upgrades to enhance the use of the structure throughout the year and into the night such as lighting, heating, glass doors and roof blinds. Please see below for more information.

Alfresco Traditional Veranda

The Traditional Alfresco is a stunning addition to our veranda range and with its massive 6-metre span between posts, it means that your outside view is never compromised.

We have worked closely with a leading designer in the glazing industry to create an innovative and truly stunning system that will enhance and add value to your home allowing you to be sheltered and comfortable in your garden whatever the weather.

The roof can be glazed with either 8mm toughened glass or 35mm polycarbonate sheet. Glass roofing offers improved acoustic properties reducing the noise of rain during a downpour as well as providing a sparkling finish which is easy to maintain.

Our innovative aluminium system features an easy-fix clip-on profiles that give a stylish and modern look. They also mean that any cabling for additional extras such as lighting, heating or even a sound system can be hidden from view with no unsightly trailing cables.

The Traditional Alfresco is the perfect solution for creating a unique and practical outdoor space for garden parties, barbecues and all kinds of family and social events all year round. With a span of 6 metres between posts and an unlimited length, you will have a solution that can be adapted to suit your exact needs.

The Traditional Alfresco comes with a 10-year guarantee and 25-year life expectancy, is available in any RAL or BS colour and with optional extras including lighting and heating, it will be an investment that will enable you to enjoy your outdoor space to the full as well as adding value to your home.

Alfresco Contemporary Veranda

The Contemporary Alfresco is a sleek yet modern structure that features a subtle elegance that will never go out of style due to its clean lines and minimal looking aluminium extrusions.

It can span up to 6 metres from the building and be manufactured in any length making it the ideal shade and shelter structure for any garden that boasts a striking, modern appearance. The roof can be covered with a choice of 8mm toughened glass that offers a clear view of the sky, or 35mm structured polycarbonate panels that are vandal and shatter-resistant.

The Contemporary Alfresco can be supplied with a range of upgrades to enhance the use of the structure such as heating, lighting, glass sliding doors and roof blinds. Please see further below for more detail.

Veranda 35

The Veranda 35 is a high strength veranda that has been proved to be the perfect solutions for all types of residential properties including communal buildings such as, flats and care homes due to its non-fragile roof rating. As an extremely versatile structure you can benefit from the weather protection all year round. The roof panels offer high UV protection, keeping you safe from the sun.

Alfresco Glass Room

The Simplicity Glass Rooms are contemporary wall-mounted structures that are enclosed with retractable glass sliding doors. The roof is covered with a choice of glass or polycarbonate panels depending on the desired effect and the frame is made completely from aluminium for a strong, long-lasting construction.

We recently asked Kevin Williams (SW Plastic) to install a front door for us. He was very polite on the phone and managed to quickly arrange a day to get it done. I have to say they done a good job and my wife and I are very happy with our new door. I would definitely recommend their services.

MICHAEL - SWAFFHAM FACEBOOK CUSTOMER

Very pleased with our windows, excellent service, would highly recommend.

JULIA MATTHEWS - ATTLEBOROUGH

Kevin and his team, are all very polite and professional, they went above and beyond, I cannot recommend them high enough, not only building a new carport for me but removing the old one. They also made sure the area was kept clean and tidy.

LOIS WILLIAMS - SPORLE

Had a carport 16 fitted, from quoting to installation and even a revisit for adjustments, Kevin, Jamie & Ant were very professional, very polite, worked hard in horrendous weather, and still kept smiling. Very happy with the company and the carport.

GRANT LONG - NARBOROUGH

Have used them on two houses I've had and they are professional and helpful, totally amazing.

DEIRDRE YAPP - FACEBOOK CUSTOMER

I am so delighted with the new door that SW Plastic supplied and fitted. I had received many quotes with ridiculous prices and time scales for delivery. I really liked the no-nonsense, straightforward approach from SW plastic. The door is of excellent quality and the service was extremely efficient from start to finish. Very tidy workmanship. I would certainly recommend SW plastic to anyone.

KIM TITMARSH - SWAFFHAM

Swaffham Town Football & Social Club is delighted with the quality and professionalism provided by SW Plastic. The transformation and improvement both cosmetic and by increased security is fantastic and will be appreciated by both our players, supporters, and Club members. The site was left clean and tidy with all waste removed. This support and service are invaluable to make the operation of a purely voluntary community organisation possible.

Many thanks, Ray Secretary STFC
